

Press Release to be placed on IRSA's Website

A detailed Water Situation Review meeting was held at IRSA HQs Islamabad on 10.06.2021, chaired by Rao Irshad Ali Khan, Chairman IRSA / Member IRSA Punjab and attended by Mr. Zahid Hussain Junejo, Member IRSA Sindh, Mr. Asjad Imtiaz Ali, Member IRSA Federal and Syed Zahid Abbas, Member IRSA KP.

2. Director (Opr) IRSA apprised the authority that by the Grace of Almighty Allah, all Rim-Station inflows had started increasing as a result of rising temperatures in the upper catchments of Indus Basin Rivers. Hence, for the regulation period 11-15 June, 2021 and hopefully onwards in Late Kharif due to sustained higher flows, the provincial releases would be as per Para-2 allocations of the Water Apportionment Accord (WAA) 1991 and as such the provinces will bear no shortage.
